

F 50B

Forward
vibratory plate,
battery powered

Easy to change battery pack

A battery powered machine for compaction of sand, gravel, rock fill and paving stones

All our machine models are versatile and easy to operate. They are also durable and reliable, which means lower operating and maintenance costs.

- The Swepac F 50B is a 54 kg vibratory plate characterized by its compact, robust design, low maintenance requirements and thus low operating costs.
- The machine is powered by a 24 V DC motor. Since the motor emits no exhaust fumes, the machine can be used in poorly ventilated spaces as well as indoors.
- The F 50B is suitable for smaller jobs, such as modifying the subsurface for pavers. With a Vulkollan® plate (accessory) attached to the base, it can compact paved areas efficiently for an even surface.
- The machine can cope with the toughest of jobs since parts of the motor and transmission are fully enclosed in a rugged polythene casing. The chassis and handle are hot-dip galvanized and maintenance-free. The excentric element has permanently lubricated bearings.
- The handle bar can easily be removed without any tools, for instance, for transportation.

TECHNICAL DATA SWEPAC F 50B

Weight, net	54 kg
Base plate, width	300 mm
Height max/min/without handle	1010/700/400 mm
Length, max / min	1125 / 565 mm
Motor	DC (battery)
Engine output, max	600 W
Centrifugal force	9 kN
Frequency	112 Hz
Working speed	0 - 25 m/min
Hand/arm vibrations HAV according to ISO 5349 on gravel surface	3.5 m/s ²
Battery type	Litium Ion
Battery	Panasonic NCR18650
Operating time	1-1.2 h
Charging time	2 h
Guaranteed sound-power level, LWA	103 d(A)
Sound pressure level (at operator's ear)	88 dB(A)

Article number

305500	F 50B incl battery charger
