

T 64

Tamper

For compaction of sand, gravel, rock fill and soil with high clay content.

All our machine models are versatile and easy to operate. They are also durable and reliable, which means lower operating and maintenance costs.

- The Swebac T 64 is suitable for repair jobs and work in areas with limited space such as trenches and building foundations.
- The machine is very well balanced and easy to operate. That means the T 64 is also suitable for minor adjustments in small spaces.
- T 64 is an efficient machine in clay and wet materials.
- It is equipped with the new Honda GXR120 engine, built for tampers. The engine offers lower fuel consumption and a more effective carburettor to handle today's environmental demands as well as making it easy to start and reliable.

Swebac is Sweden's leading manufacturer of soil compactors. The company has a wide range of products, with different motor options and a variety of sizes for every application. Swebac is certified for quality and environmental management under ISO 9001 and 14001, and our machines are Eurotest-certified by SMP Swedish Machinery Testing Institute. You will find detailed information about the company and our products on our website, www.swebac.com. We reserve the right to make changes in technical specifications without prior notice.

TECHNICAL DATA SWEpac T 64

Weight, net	64 kg
Width/length foot	230 x 280 mm
Engine, model	Honda GXR120
Volume fuel tank	2.5 liter
Fuel	Petrol
Engine power	2,7 kW (3,6 hp)
Impact force	17 kN
Compaction depth	65 cm
Vibrations frequency	10-12 Hz
Hand/arm vibrations HAV according to ISO 5349 on gravel surface	6.1 m/s ²
Noise level Lw	104.6 dB(A)
Noise level at operator, OP	94.6 dB(A)

Part number

405102 T 64 with Honda petrol engine
